| STATEMENT BY FIRM | CES, Inc. (CES) was founded in 1978. Since that time we have grown into a fully integrated consulting firm offering a wide range of services to assist our clients from project conception through final construction and beyond. Through the recent acquisition of Summit Environmental Consultants, Inc. we have grown to a staff of approximately 70 highly qualified personnel including Registered Professional Engineers, Certified Geologists, Professional Land Surveyors, Environmental Scientists and Technicians, GIS Analysts, and CAD Technicians. This combined talent allows us to provide a comprehensive range of technical services and expertise to municipal, industrial, commercial, and institutional clients located throughout New England |
